# Masterclasses

A masterclass is for those who already qualified in machine method permanent make up. Therefore, will have already shown they have knowledge and skills to further advance.

A beginner's certificate and photographs or recent work must be submitted prior to booking.

Masterclasses are a minimum of 1-day hands on training with Sian Danielle who has over 7 years' experience specifically in the permanent make up industry.

Sian is a licensed and insured artist and trainer who prides herself on being passionate about her work and ensures plenty of time is dedicated to her students to achieve great results and obtain detailed knowledge specific to permanent make up.

Masterclasses are tailored to which areas you would like to focus on. You can only select one treatment per day to allow enough time to understand and absorb the new skill.

Masterclasses you can choose to specialise in are:

## **Eyebrows**

There are a number of different styles of eyebrow treatments I specialise in; ombre, powdered, combination and hairstrokes.

Ombre is a soft, shaded look that keeps the fronts and tops of the eyebrows even softer. They gradually fade into the base of the eyebrow, which has more definition. This look blends with the client's natural hair (if they have any) and prevents there being any sharp outlined edges.

Powdered is a technique which results in a fuller 'make up' look, resembling a pencilled brow with bolder edging.

Combination is hairstrokes feathering through the front of the brow, blending into a shaded soft effect; natural, yet defined.

Hairstrokes mimic the look of a natural, individual hair, and when combined they create the effect of a defined eyebrow. They're great for those those with or without natural hair.

## Lip Blush

Lip Blush enhances the lips giving a healthy colour when healed and a more defined border. Some clients opt for a slightly more vibrant finish whilst others simply want the lip blush to enhance the natural colour of the lips.

## Lash Line Eyeliner

Lash line eyeliner helps accentuate the eyes and leaves clients with waterproof and smudge proof make up.

This style is the basis for all advanced eyeliner methods and is the most timeless treatment that suits the majority of clients.

This method will be adding colour to the base of the lashes and between them to make them appear darker and fuller.

# Course structure

## Technical 1-2-1 Training

This is the practical 1-2-1 training, working on technical skills. This includes observation time whilst shadowing the trainer and live models for the trainee. Close guidance throughout. Lunch, snacks and drinks will be provided.
